

## **Slaughter Announces \$183,000 Research Grant for University of Buffalo Funds will Go Towards Infectious Disease Research**

**Washington** - Rep. Louise M. Slaughter (D-Fairport), Ranking Member of the House Rules Committee, is pleased to announce that the University of Buffalo is set to receive a grant of \$183,000 from the National Institute of Allergy and Infectious Diseases.

The grant will help fund research efforts at the University related to microbiology and infectious disease research.

**"This is another great opportunity for the University of Buffalo and for clinical research in general,"** Rep. Slaughter commented. She continued, **"I hope this well deserved grant will advance our local scientific community and help the University expand its research capabilities, providing more well paying jobs to the region."**
